Heart Care Begins with You

Women often don't realize their symptoms can be related to heart trouble.

It's not always painful, and it's not always in the chest.

Do you know what your risk is for developing heart disease? If your heart's in trouble, your body will let you know. It's up to you to notice the warning signs and talk to your doctor.

Visit www.lakelandhealth.org/heart to learn more and get to the heart of the problem.

Lakeland Hospital, Niles and Lakeland Medical Center, St. Joseph are accredited Chest Pain Centers by the Society of Chest Pain Centers.
